

***Your Reliable & Comprehensive Lead Management Partner !!!***

***And We Connect to All Our Engineering Community !!!***

## Overview

- The only community ever developed for engineering
- The only knowledge base and Q&A for engineering
- Our arena of members define our service and reliability
- Posting products online to give relevant visibility
- Providing regional presence of your choice
- All engineering solutions under one roof - We have no competitors
- Post your engineering problems and get solutions from the worldwide engineering community

## Vision

To emerge as a world-renowned engineering source hub and connecting the engineering community globally

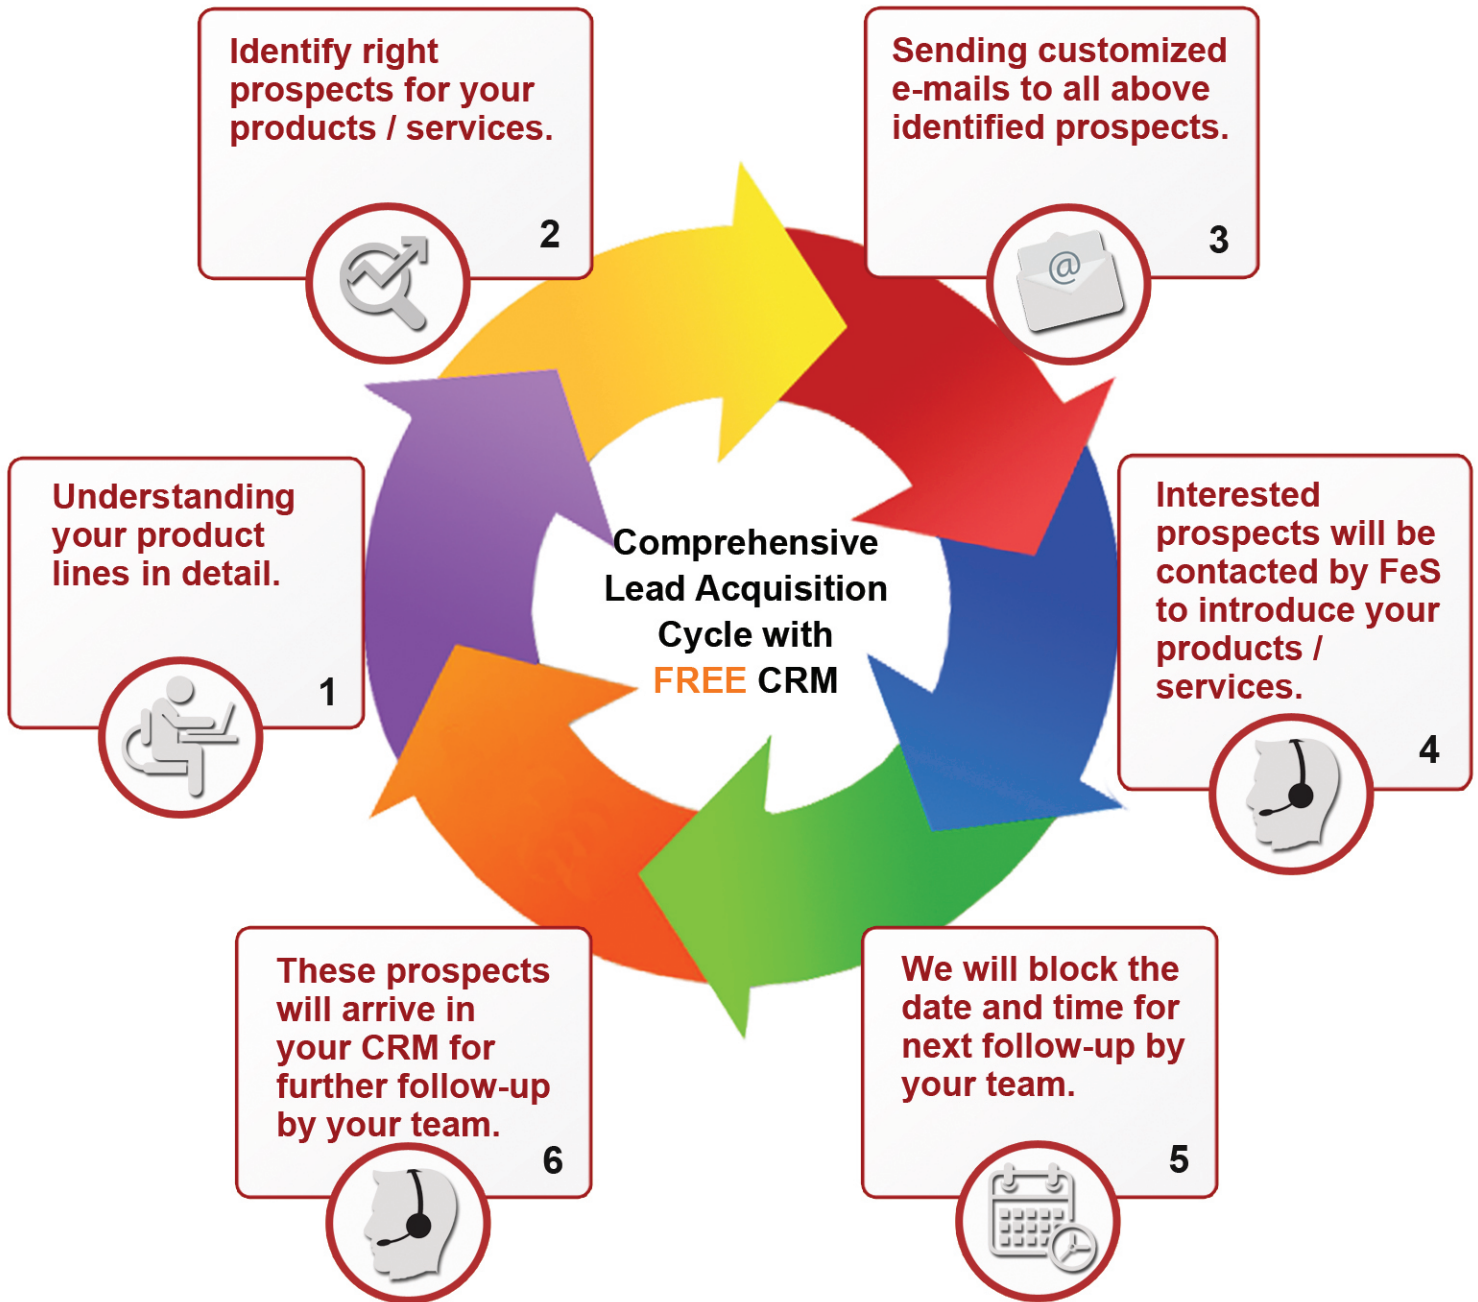

## Mission

- To help the engineering community by simplifying the engineering environment so that our participating members can free up money, time and resources to invest in innovation.
- We do this by providing the most comprehensive engineering portal, with fully integrated platforms and services for any specific engineering community.
- To organize the world's engineering information and make it universally accessible and useful to the entire engineering community.

## We are working with:-

# Lead Management Process
